Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With over 7 years of tutoring experience, I have had the privilege of helping numerous students excel in their academic pursuits. My journey began during my university years, where I discovered a passion for teaching while assisting peers in Chemistry and Statistics. After graduating, I pursued a career in education, focusing on online tutoring to reach students from various parts of the world. My approach is student-centered, emphasizing the development of critical thinking and problem-solving skills. I believe that understanding the 'why' behind concepts is just as important as the 'how.' This philosophy has driven me to adopt a variety of teaching methods tailored to each student's unique learning style. Whether you're preparing for your IB exams, need help with IGCSE coursework, or are gearing up for UCAT and BMAT, I'm here to guide you every step of the way.
